

**Organized by:** family farm "Milanovic" (13 km from Doboj)

### **Description:**

Separated from the main road in Osojnica, and yet not too isolated, residence Milanovic provides the right conditions for a real sense of the rural environment, an escape from the bustle of towns and more and more urbanized villages. Milanovic family has been building for years its estate planning to put it into the function of rural tourism. The property has a forest complex of over 5 hectares of landscaped trails, abundant water sources and waterways. In the immediate vicinity of the household is the old water mill, which can be approached by a wooden bridge, with rest stops where you can relax with a babbling brook or taste the delicious local products. The landlords raise revenue primarily from raising cattle and crops, and in preparation is the building of the restaurant where they will serve homemade products.
